

A Letter from the President

Welcome to Grundy Bank's newest branch. We are happy you stopped by to see us. This is a perfect way for you to learn about the financial solutions and delivery methods we have for your financial needs.

This is our 150th year of serving our community. It's hard to imagine that anyone in 1864 thought, that someday, people would be able to visit their bank, check their account balance or see its products while sitting in their home looking at a screen (they barely had photography) or while standing in line looking at their telephone . . . what's a telephone they would ask.

But this is the world we live in. Our goal is to combine the modern solutions of today with old time values to bring you the best banking experience. So, please, take a few minutes and learn about us . . . our product solutions, our devotion to enhancing the quality of life in our community, and, most importantly, our desire to help you achieve your financial dreams.

Please contact us via this virtual branch, the telephone or by stopping in any of our branches to learn more about how we can assist you.

Community Friends, Financial Partners . . . Grundy Bank.

Thanks for stopping by,

Kevin L. Olson
