

Clearing Your Cookies for Google Chrome

1. Go to the Tools Menu by clicking on the three vertical dots in the upper right corner as shown below:

2. Go to "More Tools" then "Clear Browsing Data"
3. Make sure the "Cookies and other site and plugin data" is checked then hit Clear Browsing Data.

4. You will then go back to the Settings screen where you can just click on the arrow in the upper left corner and try to login again.
